

# EDUCATIONAL PARTNERSHIP PROGRAM

Graphisoft is committed to supporting all students, teachers and academic institutions around the world, who are at the forefront of the industry and who aspire to deliver projects that are better designed, more predictable to construct, and less expensive to operate.

We share these goals and enthusiasm for a powerful, transparent, efficient and integrated workflow to Building Information Modeling (BIM). As a pioneer in the industry, and through leading-edge technology from 3D to 5D, we deliver the tools that allow you to design and construct great buildings!

Graphisoft actively supports students, teachers and academic institutions through our global network of offices and partners by:-

- Ø Supporting the best teaching programs and methods to stay at the forefront of industry requirements;
- Ø Allowing students to maximize their creative potential in architectural design; and
- Ø Preparing students for their future in the job market

So why not join our growing list of Educational Institutions who have become Graphisoft EDUCATIONAL PARTNERS, including these members:
